About the software
This interactive software has been developed to assist students learn to read and write who have significant language delay or are non verbal and who have failed to make progress with literacy skills. These tools allow you to quickly create customised reading and writing material using photos and video so that students are motivated by personalised books.

The training is for parents, teachers, teacher-aides, support workers and specialist staff. An excellent opportunity for families and professional teams to work together. This training day is relevant for both first time users and those familiar with previous versions of our software.

StoryMaker and Flashcards are used in homes and classrooms around New Zealand and in other countries. Over the past three years this popular and affordable software has been totally rewritten, bringing many new features and allowing easy and powerful access to video, sound and graphics. The data base of included words now contains 6,700 words!

StoryMaker 5 - allows students and those working with them to quickly and easily create personalised interactive books using video and pictures

Flashcards 5 - an interactive learning tool for developing sight vocabulary

Note *Bring: either a laptop or a tablet PC with Windows Vista or later installed, camera (tablet camera will do) with relevant photos and video for use in books and flash cards and a microphone (if possible). The software will also run on a Mac computer if it has Microsoft Windows installed. Let us know if you do not have a suitable laptop or tablet as we may be able to supply one.*

Bring your own lunch, morning tea will be provided.
